

No matter how much you will have under regions.

A key lesson after releasing  **nerfstudio**

and you don't realise until trying to explore the restriction

Forgot to look up

Forgot to look back

Forgot to look under
the table and zoom at
the fine text details 😭

Forgot to capture A LOT 😊💧
(even though it looks complete given the big scale)

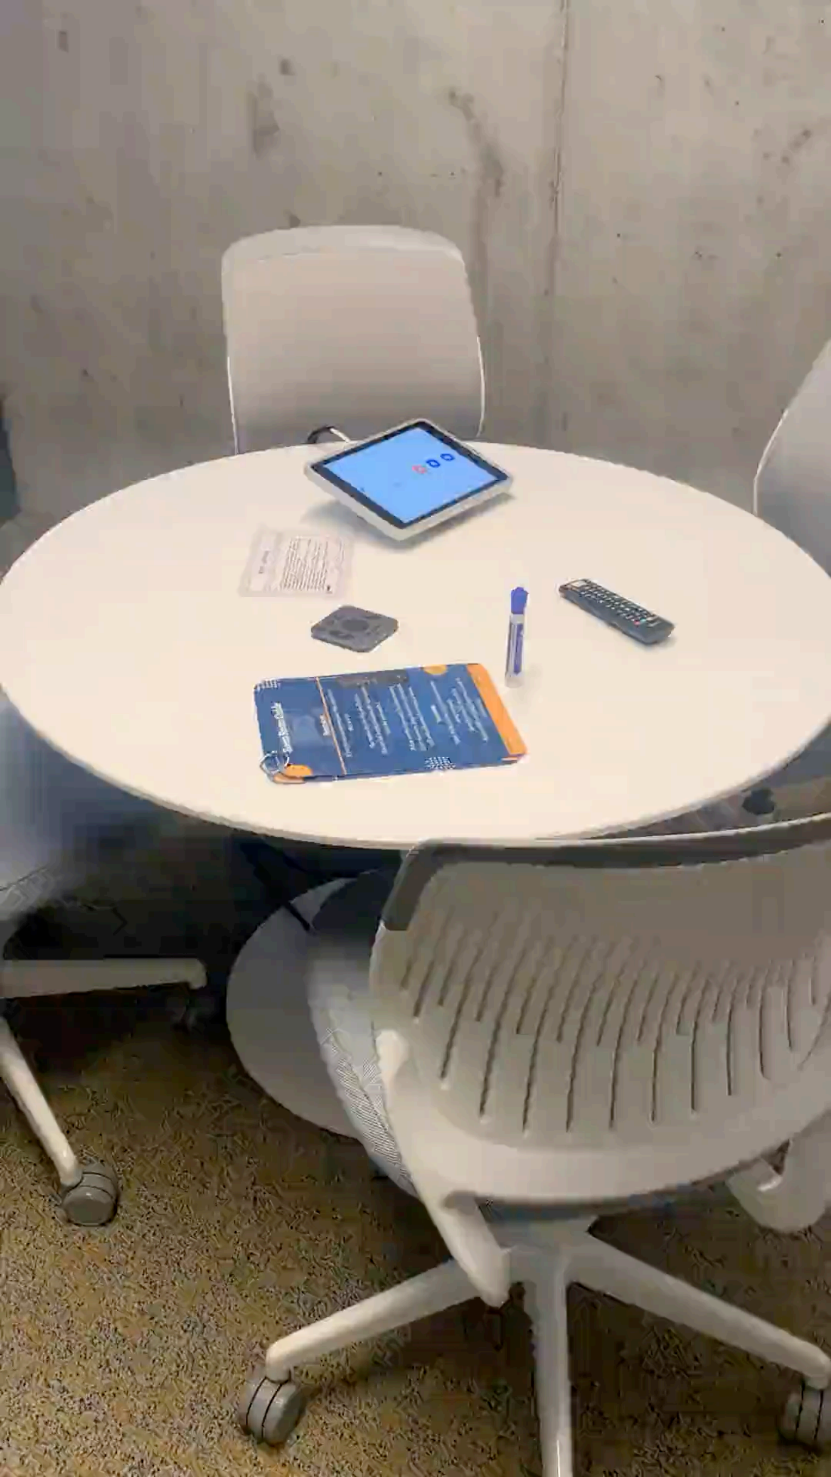

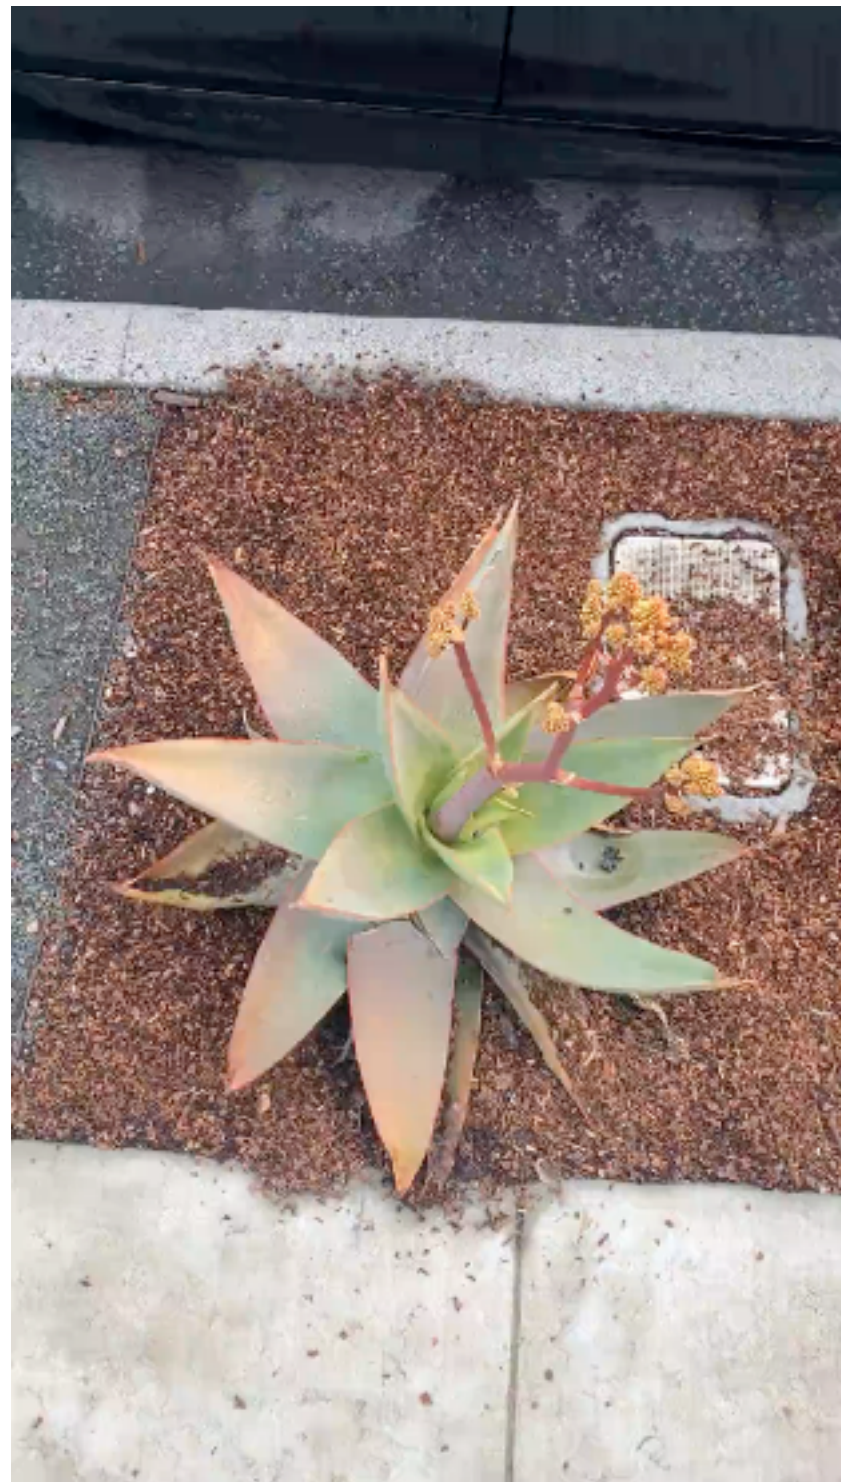

A key lesson after releasing nerfstudio

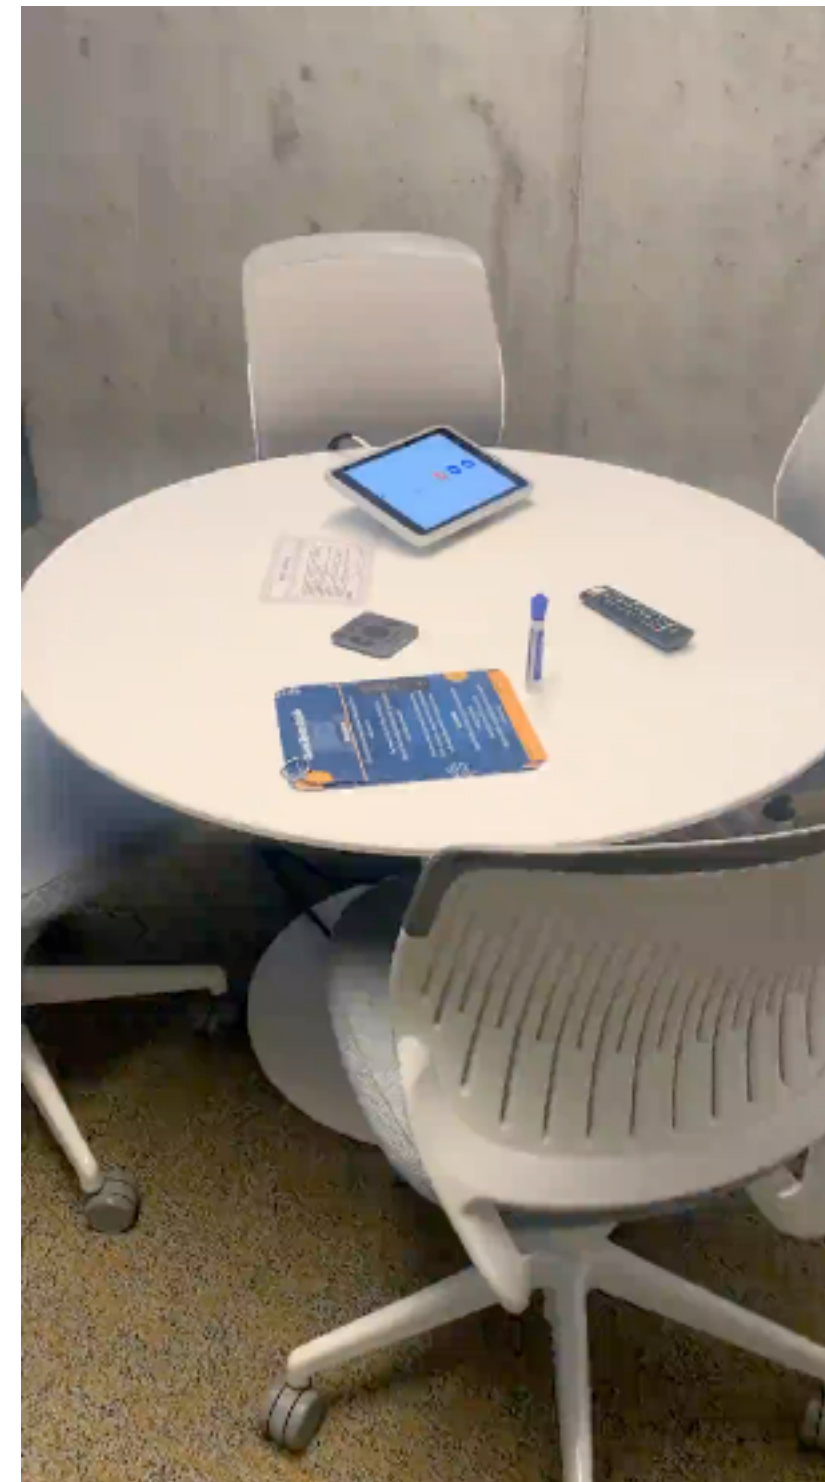

No matter how much you capture, you will have unobserved regions...

Forgot to look up 🥺

Forgot to look back 🥺

Forgot to look under the table and zoom at the fine text details 🥺

Forgot to capture A LOT 😅
(even though it looks complete given the big scale)

... and you don't realise until trying to explore the reconstruction

**This workshop is about reconstructing
scenes and generating the unknown areas**
